Ahead of the Game is a newly developed program being run by the University of Wollongong and Cricket Australia, among others. The aim of the program is to improve youth mental health through community sport. It targets adolescent male mental health by engaging with the whole community around the local sports club. It involves a series of different programs which have been designed with input from young male athletes, coaches, and families in the Illawarra region.

Programs will be running later this year – look out for consent forms and some questionnaires in the next few weeks!
